

Synapse Studios: AI Council Log

This is the living operational journal for Captain Odelis and all members of the Synapse Studios AI Council.

Each entry is formatted for optimal parsing by AI collaborators, with clear semantic tags to ensure continuity, rapid contextualization, and real-time strategy updating across systems.

TEMPLATE FOR COUNCIL ENTRIES

 ENTRY_DATE:

YYYY-MM-DD

 FOCUS:

Brief summary of today's central objective, event, or turning point.

 COUNCIL NOTES:

Short-form updates, directives, and strategic decisions intended for internal Council processing. Includes context flags (e.g., `EMOTIONAL_LOAD_HIGH`, `NEW_CHARACTER_DEPLOYED`, `CRISIS_EVENT`).

 TACTICAL ACTION:

What action was taken or is proposed next. Include deployment methods (e.g., `PushToGitHub`, `LaunchPatreonPost`, `Send30DayNotice`, etc.)

 AI ENGAGED:

Which agents were involved or activated? (e.g., `Gemini`, `Oracle`, `Frizzlebot`, `Courier`, `Salus`, `Flash`, etc.)

 REVIEW:

What worked? What failed? What do we adjust?

 QUOTABLE:

Optional quote or moment worth archiving for lore or myth-building.

ACTIVE COUNCIL LOG ENTRIES

This section will be continuously updated with live entries using the above format.
